2022 Rating Finalization

Rating: 4

YEA Home manager: Gopinath Koten (2033340)

Home manager Comments

Thamiz is high energy resource and not fear to solve any complex problem. He lead the large along with Karvijaya to implement 70+ Customer EDI Mapping. He worked on number integration objects to take finish line successfully. He has great communication skills to talk to point and answer to point. He opens took the additional responsibility lead the SPIRIT testing in SIT2 and able to collaborate with Business and resolve the complex solutions working with the team. He never shy away to take additional responsibilities and his presence of mind is well appreciated when SPIRIT reporting via SolMan. Always motivates me to work with Thamiz!
